CCEE Dot Net

1. _____is an extension of ASP.net page file

A. .WebForm1

B. .asp

C. .asax

D. .aspx

Answer : .aspx.

2. To Enter secured text ,the _____property of a text box can be set to password

A. TextBox1.type

B. TextBox1.style

C. TextBox1.TextMode

D. TextBox1.Mode

Answer : TextBox1.TextMode.

3. _____ is the configuration file for your web application

A. machine.config

B. web.config

C. assemblyinfo.cs

D. webapplication.vsdisco

Answer : web.config.

4. In comparevalidator ,the operator are taken from the _____

A. validation datatype

B. validationcompareoperator

C. validationoperators

D. none

Answer : validationcompareoperator.

5. Which of the following is true?

A. DataTable object contain DataRow and DataColoumn objects

B. DataSet and DataTable can be binary serialized

C. DataSet and DataTable can be XML serialized

D. All of the above

Answer : All of the above.

6. All web controls are derived from _____ class

A. web control

B. page

C. controls

D. none of the above

Answer : web control.

7. The _____is not Asp.net object

A. application

B. request

C. session

D. cookies

Answer : application.

8. The Following are the minimum requirement to run Asp.net pages

A. Java Virtual Machine

B. Common Language Runtime

C. Windows explorer

D. None

Answer : Windows explorer.

9. The code will be processed on web server when the runat attribute of the < Script > tag has the following value

A. Desktop

B. Client

C. Server

D. ASP.NET

Answer : Server.

10. Postback occurs in which of the following forms

A. Winforms

B. HTMLForms

C. DOTNETForms

D. Webforms

Answer : Webforms.

11. What namespace does the Web page belong in the .NET Framework class hierarchy?.

A. System.web.UI.Page

B. System.Windows.Page

C. System.Web.page

D. System.UI.Page

Answer : System.web.UI.Page.

12. Which method do you invoke on the Data Adapter control to load your generated dataset.

A. Fill()

B. ExecuteQuery()

C. Read()

D. ExecuteReader()

Answer : Fill().

13. How do you register a user control?.

A. Add Tag prefix, Tag name

B. Add Source, Tag prefix

C. Add Src, Tagprefix, Tagname

D. None

Answer : Add Src, Tagprefix, Tagname.

14. Why is Global.asax is used.

A. Implement application and session level events

B. Declare Global variables

C. No use

D. Dont know

Answer : Implement application and session level events.

15. What is the difference between user control and custom control.

A. Both can use as drag and drop tool

B. Both are same

C. Both can use different application

D. One Custom Control can be use in different project but not the same with User control

Answer : One Custom Control can be use in different project but not the same with User control.

16. Where is the default Session data is stored in ASP.Net.

A. InProcess

B. StateServer

C. SQL Server

D. All of the above

Answer : InProcess.

17. Who can access Session state variables.

A. All Users of an application

B. A Single session

C. All users within a single tunnel

D. None

Answer : A Single session.

18. What does Response.End will do?.

A. It will stop the server process

B. It will stop the client process

C. None of the above

D. None

Answer : It will stop the server process.

19. Which control supports paging.

A. Repeater

B. Datagrid

C. Both

D. None

Answer : Both.

20. Which of the following is not a member of Response Object?.

A. Clear

B. Write

C. Execute

D. Flush

Answer : Execute.

21. Which of the following is not a member of ADODBCommand object.

A. ExecuteReader

B. ExecuteScalar

C. ExecuteStream

D. CommandText

Answer : ExecuteStream.

22. How to open more than one datareader at a time.

A. Use different datareader variable

B. Use different datareader and connection variable

C. Use Different Connection

D. Can not be done

Answer : Use different datareader and connection variable.

23. Which objects is used to create foreign key between tables?.

A. DataRelation

B. DataRelationship

C. DataConstraint

D. Datakey

Answer : DataRelation.

24. Which one of the following namespaces contains the definition for IdbConnection.

A. System.Data.Interfaces

B. System.Data.Common

C. System.Data

D. System.Data.Connection

Answer : System.Data.

25. What is a strong name?.

A. Public Key

B. Private Key

C. Combination Of Public, Private key and digital signature

D. None

Answer : Combination Of Public, Private key and digital signature.

26. What is the purpose of Reflection?.

A. For Reading metadata at runtime

B. For knowing version of assembly

C. For finding path of an assembly

D. None

Answer : For Reading metadata at runtime.

27. Which of the following are not a member of Server Object.

A. Execute

B. Transfer

C. Open

D. HTMLDecode

Answer : Open.

28. What is the Server.MachineName does.

A. Gets the Server`s Machine Name

B. Gets the Referred Web site name on the server

C. Gets the Client Machine Name

D. None

Answer : Gets the Server`s Machine Name.

29. What section of the config.Web file is used for storing a list of authorized users?.

A. 1

B. 3

C. 4

D. None

Answer : 3.

30. How do you add ASP.Net 3rd party component.

A. By add/Remove items in the project menu

B. Add reference of dll file and place the code where ever required

C. Cannot add third party component to asp.net

D. None

Answer : Add reference of dll file and place the code where ever required.

31. UDDI stands for _____.

A. Universal Description Discovery and Integration

B. Unique Description Discovery and Integration

C. Universal Data Discovery and Integration

D. Universal Discovery Data Information

Answer : Universal Description Discovery and Integration.

32. we can create a proxy file for the web service by using _____ tool.

A. webservice.exe

B. webserviceutil.exe

C. WSDL.exe

D. ILDASM.exe

Answer : WSDL.exe.

33. The custom control page should contain_____ directives.

A. @page

B. @Register

C. @Control

D. @WebService

Answer : @Control.

34. The class control is present in _____ namespace.

A. System

B. System.Web

C. System.Web.UI

D. System.Web.UI.Controls

Answer : System.Web.UI.

35. The authentication type that uses cookies is known as _____ authentication.

A. windows

B. forms

C. passport

D. none

Answer : forms.

36. The process of location errors in code is known as _____.

A. Tracing

B. Compiling

C. Caching

D. Debuging

Answer : Tracing.

37. _____ is technique used to increase performance by keeping frequently accessed data in memory.

A. Tracing

B. Caching

C. Debuging

D. All of the above

Answer : Caching.

38. The_____ method of the ____object is used to retrieve the data in the form fields submitted by the user.

A. form,server

B. form,response

C. form,request

D. form,application

Answer : form,request.

39. The Property of the radio button controls restricts the user to select one option from the given set of options .

A. Group name

B. Group id

C. id

D. text
Answer : Group name.

40. The _____ validation control display list of all the validation errors occuring in all controls is created and displayed on th page .

A. RequiredFieldvalidator

B. RequiredExpressionValidator

C. RangeValidator

D. ValidationSummary

Answer : ValidationSummary.

41. Setting the text box to _____ allow the user to enter many lines of data.

A. many lines

B. more lines

C. multi lines

D. password

Answer : multi lines.

42. Applcation_OnBeginrequest fires when.

A. fired every time a page request begins

B. fired when the first asp.net page in the current application directory is called

C. fired every time when newsession begins

D. fired when session ends

Answer : fired every time a page request begins.

43. The ASP.NET HTML controls exists in the _____ namespace.

A. system.web

B. System.web.UI

C. System.web.UI.HTMLcontrols

D. System.web.UI.Webcontrols

Answer : System.web.UI.HTMLcontrols.

44. The _____ method of the server object is used by server and acts as an interface between the virtual/relatives directories on the web server & the physical directories on the server.

A. Server.URLEncode()

B. Server.MapPath()

C. Server.HTMLEncode

D. Server.Transfer()

Answer : Server.HTMLEncode.

MK

45. Which is the executable unit, which gets created when we build an ASP.Net application?.

A. .EXE

B. .DLL

C. .COM

D. .ASPX

Answer : .DLL.

46. To add a custom control to a Web form we have to register with.

A. TagPrefix

B. Name space of the dll that is referenced

C. Assemblyname

D. All of the above

Answer : TagPrefix.

47. A web application running on multiple servers is called as.

A. WebForm

B. Webfarm

C. Website

D. webgarden

Answer : Webfarm.

48. What is the extension of a web user control file?.

A. .asmx

B. .ascx

C. .aspx

D. .ashx

Answer : .ascx.

49. What is the default session out time.

A. 20 Sec

B. 20 Min

C. 1 hr

D. Never

Answer : 20 Min.

50. Which of the following is true ?.

A. IsPostBack is a method of System.UI.Web.Page class

B. IsPostBack is a method of System.Web.UI.Page class

C. sPostBack is a readonly property of System.Web.UI.Page class

D. None

Answer : sPostBack is a readonly property of System.Web.UI.Page class.

51. What is the difference between user control and custom control.

A. Both can use as drag and drop tool

B. Both are same

C. Both can use different application

D. One Custom Control can be use in different project but not the same with User control

Answer : One Custom Control can be use in different project but not the same with User control.

52. What is the default authentication mode for IIS.

A. Windows

B. Anonymous

C. Basic Authentication

D. None

Answer : Windows.

53. Which of the following is not a valid state management tool?.

A. Application State

B. Hidden Form Field

C. Querystate

D. Cookies

Answer : Querystate.

54. Select the control, which does not have any visible interface .

A. Datalist

B. DropdownList

C. Repeater

D. Datagrid

Answer : Repeater.

55. How do you explicitly kill a user`s session?.

A. Session.Close

B. Session.Discard

C. Session.Abandon

D. Session.End

Answer : Session.Abandon.

56. What is the purpose of code behind?.

A. To separate different sections of a page in to different files

B. To merge HTML layout and code in to One file

C. To separate HTML Layout and code to different file

D. To ignore HTML usage

Answer : To separate HTML Layout and code to different file.

57. The object used by SQL connection to make Security Demands.

A. SQLLCientAttribute

B. SQLPermission

C. SQLPermissionClient

D. SQLClientPermission

Answer : SQLClientPermission.

58. How to open more than one datareader at a time.

A. Use different datareader variable

B. Use different datareader and connection variable

C. Use Different Connection

D. Can not be done

Answer : Use different datareader and connection variable.

59. What is the Full Form of WSDL.

A. Web System Description Language

B. Web Services Detail Language

C. Web Service Description Language

D. None

Answer : Web Service Description Language.

60. What is the size of the session ID.

A. 32 bit long string

B. 32 bit long double

C. 32 bit long character

D. 32 bit long integer

Answer : 32 bit long string.

61. Which of the following extension does a webservice file will have.

A. .asmx

B. .aspx

C. .ascx

D. .resx

Answer : .asmx.

62. What is a diffgram?.

A. The one which renders the dataset object contents to XML

B. Finds the difference in two objects

C. Finds the difference in two files

D. None of the above

Answer : The one which renders the dataset object contents to XML.

63. Select the output of the statement < form method=post action="test.aspx" >.

A. Transfers all the form data to test.aspx with HTTP headers

B. Transfers all the form data to test.aspx with out HTTP headers

C. Calls post method on test.aspx

D. None of the above

Answer : Calls post method on test.aspx.

64. Trace output can be sort by specifing _____ attribute of page directive.

A. Trace

B. TraceMode

C. OutputBy

D. Language

Answer : TraceMode.

65. What is the difference between user control and custom control

A. Both can use as drag and drop tool
B. Both are same
C. Both can use different application
D. One Custom Control can be use in different project but not the same with User control

Answer : One Custom Control can be use in different project but not the same with User control.

66. What is the default authentication mode for IIS

A. Windows
B. Anonymous
C. Basic Authentication
D. None

Answer : Windows.

67. Which of the following is not a valid state management tool?

A. Application State
B. Hidden Form Field
C. Querystate
D. Cookies

Answer : Querystate.

68. Select the control, which does not have any visible interface

A. Datalist
B. DropdownList
C. Repeater
D. Datagrid

Answer : Repeater.

69. How do you explicitly kill a user`s session?

A. Session.Close
B. Session.Discard
C. Session.Abandon
D. Session.End

Answer : Session.Abandon.

70. What is the purpose of code behind?

A. To separate different sections of a page in to different files
B. To merge HTML layout and code in to One file
C. To separate HTML Layout and code to different file
D. To ignore HTML usage

Answer : To separate HTML Layout and code to different file.

71. The object used by SQL connection to make Security Demands

A. SQLLCientAttribute
B. SQLPermission
C. SQLPermissionClient
D. SQLClientPermission

Answer : SQLClientPermission.

72. How to open more than one datareader at a time

A. Use different datareader variable
B. Use different datareader and connection variable
C. Use Different Connection
D. Can not be done

Answer : Use different datareader and connection variable.

73. What is the Full Form of WSDL

A. Web System Description Language
B. Web Services Detail Language
C. Web Service Description Language
D. None

Answer : Web Service Description Language.

74. What is the size of the session ID

A. 32 bit long string
B. 32 bit long double
C. 32 bit long character
D. 32 bit long integer

Answer : 32 bit long string.

75. Which of the following extension does a webservice file will have

A. .asmx

B. .aspx

C. .ascx

D. .resx

Answer : .asmx.

76. What is a diffgram?

A. The one which renders the dataset object contents to XML

B. Finds the difference in two objects

C. Finds the difference in two files

D. None of the above

Answer : The one which renders the dataset object contents to XML.

77. Select the output of the statement < form method=post action="test.aspx" >

A. Transfers all the form data to test.aspx with HTTP headers

B. Transfers all the form data to test.aspx with out HTTP headers

C. Calls post method on test.aspx

D. None of the above

Answer : Calls post method on test.aspx.

78. Trace output can be sort by specifing _____ attribute of page directive

A. Trace

B. TraceMode

C. OutputBy

D. Language

Answer : TraceMode.
